

Sport Plus Designer Foam Tile Cleaning Instructions

Initial Cleaning:

Our Sport Plus Designer Foam Tiles include a protective surface film that requires cleaning before use. This is easily cleaned by damp mopping with common household floor cleaners, avoid bleach.

Regular Cleaning:

Clean mats regularly with a vacuum. Please first test your vacuum on the dense foam mats to make sure your vacuum does not damage the mats.

As necessary, damp mop the mats with basic household soap and hot water. Spot cleaning can be achieved by using a scrubby and a sponge.

Mats can be taken up and cleaned inside or outside and then put back down when dry. The mats will not absorb any water.

For larger commercial areas we recommend using a walk behind auto cleaning machine for regular maintenance.
