

Installing a Greatmats Carpet Tile Raised Squares floor is a snap. We recommend reading these instructions thoroughly and completely before beginning. Each carton contains 10 tiles with a vertical orientation and 10 with a horizontal orientation, giving you a checkerboard pattern when installed as recommended. Feel free to contact our customer service team at 877-822-6622 or info@greatmats.com if you have questions.

Supplies Needed

1. Tape Measure
2. Pen or Marker
3. Straight Edge
4. Power Saw

Installation

1. Place first tile in a corner with the loops pointed in the direction that you want to add tiles.

2. Keeping the loops in the same direction, continue to add tiles, alternating the orientation or grain of the carpet with each tile, creating a checkerboard pattern. Place tabs of new tiles over loops of the already laid tiles and push down until they snap into place.

3. Work out evenly in both directions.

4. Add border strips in same manner, if desired.

Cutting Tiles

1. Using tape measure, measure distance between existing tiles and wall.

2. Using pen or marker, mark that distance on the tile you'd like to cut, keeping in mind direction of the tile.

3. Using straight edge, draw line(s) where you'd like to cut.

4. Cut along lines using power saw.
